Dear Parents,

We must sincerely applaud your vigor for the enthusiasm and commitment shown in ensure your sons presence and at the same time giving them the motivation to perform to their best of your child's ability. It's was indeed a wonderful sight to behold watching both the parents and children displaying the spirit that we were longing for.

I am sure, that you will agree, because of this indomitable energy and spirit, the performance level of the players was also a notch higher than the previous week. There were matches where we were made to look second class in our previous games but none of the teams that played us last week could walk past us without a determined fight.

Yes, we did lose some matches but all those defeats were jus scores that were not in our way. What was more important was the vast improvement that we have shown. This is what we were aiming for and kudos to all, both the parents and your child for a splendid show.

We will be having break until the 21<sup>st</sup> of November where the final round of matches will be played. We seek your support once again to give us the same support that we have received so far.

We will also be giving medals to all players so please ensure your attendance.

Once again thank you and have a pleasant holiday. To all Hindus, we wish a very Happy Deepavali.

Yours in sport

Kunju Jamaludeen  
Tournament Director
