SAMSUNG KIDS LEAGUE

Singapore Soccer Academy had three teams participating in this new and exciting league. They were namely SSA Falcons, SA Eagles and SSA Hawks.

It was a league for children aged eight and nine years old. As always, our participation was to give the boys as much exposure as possible. We in the academy had always envisaged that these competitive games will help the child to develop his potential and to excel. A number of players stood out playing in the league, showing off their ability and displaying their skills that had the huge crowd mesmerised by their brilliance with the ball. A point to note is our boys were much younger when competing in the league which in turns speaks well for the development and coaching philosophy at Singapore Soccer Academy.

All three teams, qualified for the semi finals after going through the league format. SSA Falcons had to meet SSA Hawks their semi finals match while our Eagles team played Arsenal FA.

Eagles lost to Arsenal FA while Hawks after displaying a spirited display succumb to the high flying Falcons team.

Our Falcons team were not able to sustain the same energy as they did in the semi finals. Though our boys fought hard we were still beaten to finish as runners up while our Eagles teams finished third after beating SSA Hawks.

We sincerely thank all parents for their undying support, while at the same time giving active help and encouragement during the course of the tournament.

We also wish to thank Samsung for giving us an invitation to participate in this very well organised event and helping each and every child to realise their capacity for development in a competitive league.

We look forward to Samsung organising many more such tournaments to assist in each child's development and help to realise their talent on the big stage.

Thank you.
